

Student Forms and Petitions: Add Drop

A Quick Guide for Students

The Add Drop form allows you to electronically propose a number of actions – add or drop a subject, change grading options, or change units. These proposed changes are then electronically routed to the subject instructor, if necessary, and then to your advisor for approval. Once approved, you must complete the process by submitting the form to the Registrar.

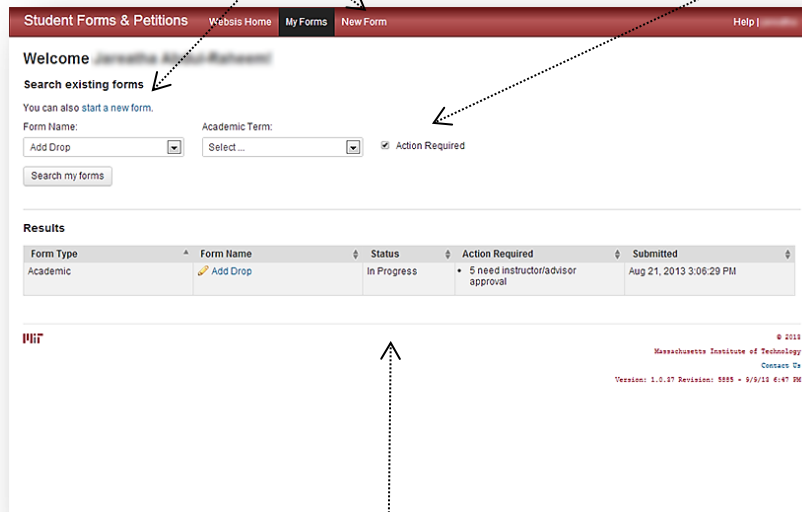

There are three pages you will use.

1. **My Forms** - locate your form for viewing and editing
2. **Add Drop** - create and manage your proposed changes
3. **Status** - lists changes: saved by you, requiring actions by others, approved, denied or held
