The Online Registration Application

About the Online Registration Application

Registration is the process of selecting and approving subject selections, providing/updating important contact information, and agreeing to the terms of enrollment each semester. The Online Registration application allows you and your advisor(s) to select subjects and submit your registration.

What is the Sequence of Online Registration?

The Online Registration Process proceeds through a sequence of steps. At subsequent stages of the process your online registration passes through different status designations. You can follow the process on the Registration Status Timeline.

REGISTRATION STATUS

Pre-Registration takes place before Online Registration begins. If you have pre-registered, a green check will show on the **Registration Status Timeline** at the first step. If you have not pre-registered you may still use Online Registration but you will not see the green check. Freshmen do not pre-register, therefore you will not see the green check icon for Pre-Registration.

1. Edit Subject Selections - Awaiting Approval

Awaiting Approval means the subject selection process is in progress.

When online registration opens for a given term, if you are eligible to register you are assigned the state of Awaiting Approval. In this state, you or your academic advisor may edit your subject selections.

2. Advisor Approval - Approved

Approved means you have met with your Advisor and your subject selections for the upcoming semester have been approved. Once Approved, your selections **may not be altered** in the Registration system. To make changes, use the Add /Drop/Change process.

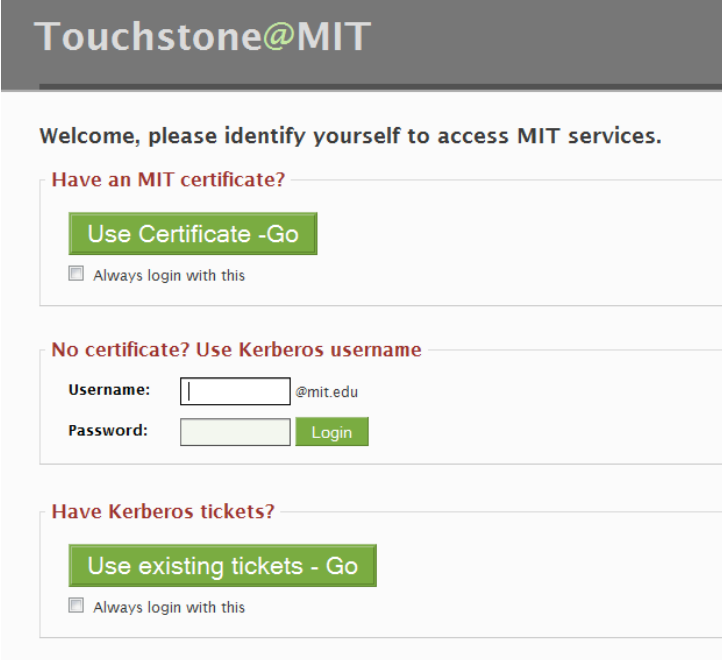

3. Review and Submit Registration - Submitted

Submitted means you have sent an approved set of subject selections to the Registrar.

Once subjects are approved by your Advisor, you will continue through the Submit process which has a few additional steps. After you complete the additional steps and click the Submit button, your registration state becomes Submitted and registration is complete.

How Do I Access Online Registration?

You will access the Online Registration System through the WebSIS Home page as long as you are eligible to use the system and the registration period is open. Authentication is handled through Touchstone and DUO where you are asked to use your Certificate or to enter your Kerberos username and password.

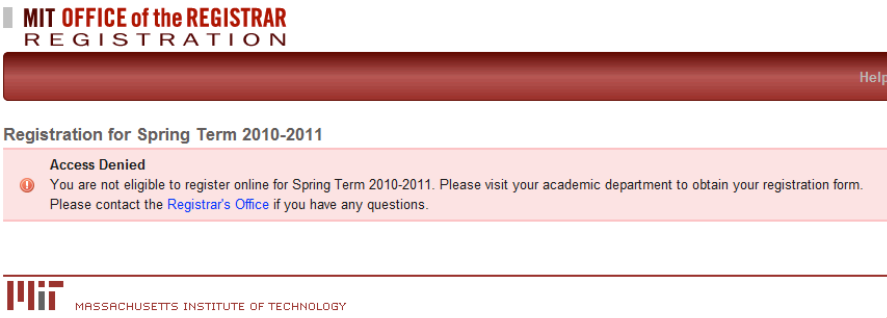

The image shows the Touchstone@MIT login page. At the top is a dark grey header with the text "Touchstone@MIT" in white. Below the header is a light grey box containing the text "Welcome, please identify yourself to access MIT services." There are three main sections for authentication:

- Have an MIT certificate?**: A green button labeled "Use Certificate -Go" and a checkbox labeled "Always login with this".
- No certificate? Use Kerberos username**: Fields for "Username:" (with a text input and "@mit.edu" suffix) and "Password:" (with a text input and a green "Login" button).
- Have Kerberos tickets?**: A green button labeled "Use existing tickets - Go" and a checkbox labeled "Always login with this".

After selecting your Certificate or entering your Kerberos username and password and verifying your identity via DUO, you will see the Online Registration Home Page.

Note: If you are not eligible to use the Online Registration system you will see a screen similar to the one below. Follow the instructions in the message box to continue the registration process.

The image shows the MIT Office of the Registrar Registration page. At the top is a dark red header with the text "MIT OFFICE of the REGISTRAR" in white, with "REGISTRATION" in a smaller font below it. A "Help" link is visible in the top right corner. Below the header is a light pink box containing the text "Registration for Spring Term 2010-2011". Below this is a message box with the text "Access Denied" and a red warning icon. The message reads: "You are not eligible to register online for Spring Term 2010-2011. Please visit your academic department to obtain your registration form. Please contact the [Registrar's Office](#) if you have any questions." At the bottom of the page is the MIT logo and the text "MASSACHUSETTS INSTITUTE OF TECHNOLOGY".

Messages

- Your current selections total less than 32 units. Be advised that this could impact financial aid and/or result in other financial implications.
- Based on the results of your Freshman Essay Evaluation (FEE), you may take any CI-H or CI-HW in either semester of your freshman year. A full list of [CI-H subjects](#) is available online. Please note, some CI-H subjects may be listed as HASS-D. Because enrollment in these subjects is managed by a lottery, they cannot be added to this registration form. To enroll in a CI-H subject that is also listed as a HASS-D, please review the procedures at <http://shass.mit.edu/undergraduate/hass/lottery/open>. To enroll in any other CI-H or CI-HW subject not listed as HASS-D, you register as you do for other MIT subjects. You may view your FEE results in your [Freshman Folder](#). Please email commreq@mit.edu if you need additional information.
- Advanced placement scores and advanced standing exam results are available in your Freshman Folder. You may view these results in your [Freshman Folder](#).
- You will be awarded transfer credit. You may view the pending credit in your [Freshman Folder](#).
- Math Diagnostics Recommendation: As judged by your performance on this Diagnostic, your preparation in high school math is adequate to enroll either in 8.012 or in 8.01. If your score is between 71 and 75 the Physics Department recommends 8.01 but you may take 8.012 if you wish. If your score is 76 or higher, the Physics Department recommends 8.012 but you may take 8.01 if you wish. Please discuss your choices with your freshman advisor.

[2] View Change Log

After you add a subject and click the **Save Selections** button, take note of the Total Units and Credit Limit. Many factors affect the way credit limits are calculated. For example, subjects with a grading mode of Listener are not included in credit limit calculations.

When credit limits are exceeded, a warning icon is displayed showing Total Units of subjects selected and the Credit Limit. Some subjects, such as 8.01L, extend into a second term. In those cases, half of the subject's units are applied to one term for the purpose of determining if a credit limit is exceeded. In these cases, the term "Units Applied to Credit Limit" will appear.
